Attendance and participation in lecture is expected and in lab it is required. It is your responsibility to notify your instructor before you miss lab for a College scheduled event (swim meet, softball game, concert, etc.) or as soon as possible after an illness. Every effort should be made to attend another lab section the same week as your scheduled lab. Each medical absence from lab without a written verification from the Health Center that the absence was legitimate will result in a deduction of 25 points from your course total. Hour exams missed with a verified reason (see above) will not be made up; the
total number of points available to you will be reduced and your course grade
determined by the percentage of the available points which you obtained. Exams
missed without a verified absence will be graded as 0 points. The final can be made-up
in the case of verified absences.
